

If you are finished early with the exercise, we encourage you to explore the following topics:

**Module: R syntax, projects, and data import**

- Customize your [RStudio appearance](#)
- Find an R [user community](#) near you, or an [RLadies](#) group

**Module: Data cleaning**

- See the “[Working with dates](#)” chapter of the Epi R Handbook
- See the “[Working with strings/characters](#)” chapter of the Epi R Handbook

**Module: Grouping data and summary tables**

- See this info on [simple statistical tests](#) in R

**Module: Introduction to ggplot2**

- [Factors](#)

**Module: Data transformations**

- [Long-to-wide pivots](#)

**Module: More data visualization**

- [Smart labels in ggplot2](#)

**Module: R Markdown**

- See extras in at the end of the exercise
